Author Index—Volume 138 (2002)

Alferes, J.J., L.M. Pereira, H. Przymusinska and T.C. Przymusinski LUPS—A language for updating logic programs	87–116
Cui, B. and T. Swift Preference Logic Grammars: Fixed point semantics and application to data standardization	117–147
Gelfond, M. and N. Leone Knowledge Representation and Logic Programming (Editorial)	1
Gelfond, M. and N. Leone Logic programming and knowledge representation—The A-Prolog per- spective	3–38
Gottlob, G., F. Scarcello and M. Sideri Fixed-parameter complexity in AI and nonmonotonic reasoning	55–86
Leone, N., see Gelfond, M.	1
Leone, N., see Gelfond, M.	3–38
Lifschitz, V. Answer set programming and plan generation	39–54
Marek, V., I. Pivkina and M. Truszczyński Annotated revision programs	149–180
Niemelä, I., see Simons, P.	181–234
Pereira, L.M., see Alferes, J.J.	87–116
Pivkina, I., see Marek, V.	149–180
Przymusinska, H., see Alferes, J.J.	87–116
Przymusinski, T.C., see Alferes, J.J.	87–116
Scarcello, F., see Gottlob, G.	55–86
Sideri, M., see Gottlob, G.	55–86
Simons, P., I. Niemelä and T. Soininen Extending and implementing the stable model semantics	181–234
Soininen, T., see Simons, P.	181–234
Swift, T., see Cui, B.	117–147
Truszczyński, M., see Marek, V.	149–180
